TALK : [*Simulation and Decision Support Systems*](#)

Jayendran Venkateswaran is currently an Associate Professor in Industrial Engineering and Operation Research at IIT Bombay, Mumbai, India. He completed his Bachelor's degree in M.Sc. (Tech.) Engineering Technology from BITS Pilani in 2000, and Masters and PhD degrees in Systems and Industrial Engineering from the University of Arizona, USA in 2005. He has been a faculty member in IIT Bombay since 2005.

His research and teaching interests are primarily in the areas of modeling, simulation, and analysis of complex stochastic systems such as supply chains, logistics and health care. He is also passionate about open-source software tools and computation techniques in general.
